“Johnson is one of the few writers in the genre who handles high emotion without preciousness, and she brings an almost unbearable pathos to many of these stories.”
— Simon Ings, *The Times*

“Stinson has invented substantial woman heroes who have agency and imaginations and she’s placed them into a historical novel in ways we had not seen before. . . . joyful and buoyant. . . . a complex and wonderful gift.” — Judith Katz, *Lambda Literary*

THE FINAL LIMINAL NOVEL

All the work that Taggart's done, all the fighting, everything he's done to drag himself into the present day as a better man, still a Liminal, but empathic, able to see beyond his next paycheck, all of it is going to be tested. After traveling back in time to rescue his foster daughter, Taggart has returned to the present and found himself in his favorite place: up against the wall. But the world they've returned to is not the one they left: everything is slightly grayer, the music is boring, joy is just out of reach. The Liminals' entropic enemies, the Alters, are trying to bring about the end of the world by sucking the life — literally — out of enough people to tip the balance their way.

Traveling from Jamaica to London, from Indonesia to the heart of the whirlwind in the desert at the heart of all deserts, Taggart and his **found family of Black superheroes** and supporters have to bring back the joy before they're all ground down into the gray dust.

Praise for Ayize Jama-Everett's Liminal Novels

"The family one chooses is just as important as the one a person is born into." — *Washington Post*

"A vitality to the voice and a weirdness that, while not always controlled or intentional, is highly appealing for just that reason." — Charles Yu, *New York Times Book Review*

Sometimes a door will open into a new world, sometimes into the past. Putting on a costume might be the restart you are half hoping for. There are things buried here. You might want to save them. You might want to get out of the way.

★ "Landscapes and memories alter, gentrify, and crumble in Butner's flawless debut collection, which wends ghosts, virtual futures, and the intricacies of friendship into 16 breathtaking, intimate stories. . . . Readers of John Crowley, Ray Bradbury, and Sally Rooney alike will find a home in this beautiful, grounded exploration of pasts and futures—and the people suspended between them." — *Publishers Weekly* (starred review)

In 1888 Shannon, a Chicago private detective, goes home to Texas for a wedding and is asked by Galveston's new rabbi to locate swindlers, claiming to be seeking money for a future colony of Romanian Jewish refugees, and a man named Silverberg who has disappeared in Texas along with them.

"Robert Freeman Wexler never fails to knock me out, and *The Silverberg Business* hits like a hurricane—there's strangeness and beauty on every page. The novel is that rare thing, a weird western that's truly weird, set in a Texas that's simultaneously gritty, violent, and real, yet soaked in myth. Don't miss this." — Daryl Gregory, author of *Revelator*

Jeffrey Ford writes fantastic naturalistic stories where the weird comes crashing in. Maybe it's an unexpected light in an uninhabited house, maybe it's an angel you'll have to fight if you want to gain tenure.

"Ford specializes in having the mundane meet the creepy and inevitably weird, leaving the reader often unsettled and in awe." — *Book Riot*
